abode

" Good kitchen tap design is not just about problem solving. It is about creating a beautiful and practical object that can stand out in your home but also integrate invisibly within your kitchen. It needs to deliver the right mixture of simplicity, elegance and innovation in equal measure. Despite knowing this, I cannot resist adding something personal to all my designs "

Paul Illingworth – Abode Designer

DESIGNED FOR LIFE

The Abode ranges of kitchen mixertaps are created for people who want the perfect blend of design, performance and sheer quality in their homes without an enormous price tag. All Abode taps are lovingly hand finished, assembled and tested in our European factories prior to the journey to the centre of your kitchen and your daily life.

DISTINCTLY DETAILED

Each and every detail on an Abode kitchen tap serves a purpose. Every form performs a function, beautifully. And at the heart of the design, precise engineering and manufacturing quality ensure smooth, almost effortless control.

*" Making simple objects complicated is commonplace;
making complicated functionality simple, incredibly simple,
that's creativity "*

FUNKTIONALITY ASSURED

All Abode products use the finest components, from silky smooth valve cartridges to our anti splash aerators at the end of the spout – all are designed to improve the experience of using our taps. These small things might not be immediately noticeable but add up, collectively to make a good design, great.

WATER AERATION

All mixers use spout aerators or flow straighteners to add bubbles to the water leaving your tap. These innovations in fluid technology keep your water flow in a controlled and distinctive pattern and eliminates splash back. Simple ideas, refreshing benefits.

VALVE CARTRIDGES

All Abode cartridge designs are tested for over 200,000 cycles before we will pass them for use within our taps. Why? Well this means that under normal use conditions your tap valves have proven that they will work for many years to come. The kitchen tap is the most used appliance in the kitchen, so valve quality assurance is essential.

FINISHING QUALITY

We use traditional artisan hand polishing techniques which ensure perfect blemish free surfaces and crisp edges. Our hand treatment does not end there – we use hand plating for Chrome, Nickel and Bronze plating. Yes we know it is more expensive to do it this way, but it means that the finish is richer, the plating deeper and ultimately more durable.

LUXURY PACKAGING

After taking all this care with the product, we want to ensure they reach you in perfect condition with all the parts that you will need for a seamless and straightforward installation. Fixing kits and tail pipes (with non return valves where necessary) are provided and designed to seat neatly within a standard 35mm tap hole. If the tap is heavy or tall, we also provide you with a tap stabilisation bracket in the box. We try and think of everything so you don't have to.

COMPREHENSIVE WARRANTY

Such is our dedication and reputation for quality, we offer a Comprehensive 5 Year Warranty on all our mixertap products, from our least to most expensive designs. We cover the materials used and valves for 5 years from the date of installation. For more details refer to page 126.

DISTINCTLY MODERN

Contemporary taps characterised by clean design lines, modern shapes and smooth effortless water control.

"Good modern industrial design begins with simple honesty, asks difficult questions, benefits from supplier collaboration and ultimately arrives from trusting your intuition"

LINEAR

Strong linear lines give both designs a particular character and strength of presence. The monobloc and single lever taps are complemented by the soft curves of the handles and spout, creating a range of ultra slim designs for the most contemporary kitchens.

DISTINCTLY HERITAGE

The heritage ranges of kitchen brassware are inspired by, but not living in the past. The inspiration for the collection comes from the classic era of British design and manufacturing; refined & distinctive styles that will bring lifelong brilliance to your home.

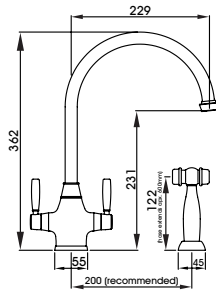

The Brompton collection is a modern reflection of the classic themes of vintage British design. These imposing styles will grace all kitchens, from progressive modernism to enduring classicism, conveying a simplicity of form with life long performance.

Chrome [£335.00]

AT2004
Brushed Nickel [£355.00]

 Min 0.3 bar pressure required

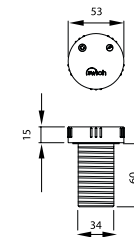

Full starter filter kit supplied, for more information refer to page 121.

SWICH AQUIFIER

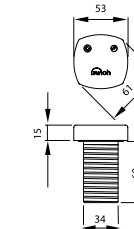

For the first time, you are not restricted to the style of tap you can have in your kitchen, or the need for unsightly separate dispenser or jugs for filtered water. The addition of the award winning Swich water filter diverter will allow you to simply and quickly convert any manufacturer's kitchen tap to supply filtered water, improving the overall taste, appearance and quality of your drinking water without needing to compromise on style.

SWICH ROUND

AT1162 Chrome	[£155.00]
AT1163 Brushed Nickel	[£155.00]
AT1164 Antique Bronze	[£155.00]

SWICH SQUARE

AT1165 Chrome	[£155.00]
AT1166 Brushed Nickel	[£155.00]

Cold water becomes filtered

Cold water reverts to normal

Swich is patent pending

*“ A Minor Revolution in
filtered water technology ”*

The Swich is easy to install and use. Simply turn the handle control to indicate the type of water supply that you wish to channel through the tap – giving you immediate access to both the domestic supply and then to water filtered through the Abode Aquifier filter cartridge, delivering clear refreshing results.

Filtered water flow

Normal water flow

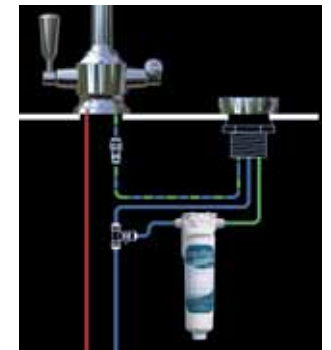

The flow of cold or filtered water from the tap is adjusted and managed in exactly the same way as you would normally use the tap. When the Swich is turned to the filter setting, you will experience a lower flow of water. This is designed to ensure that the water coming into the filter has sufficient contact time with the activated carbon inside the filter cartridge, housed discreetly under the sink.

Installation is quick and simple. Abode has pioneered the use of push-fit pipe technology for the simple DIY installation of our Swich filtered water diverter system. Normal domestic water passing over the 5 Micron activated carbon filter reduces chlorine levels and reduces sediment, dirt, dissolved metals and rust resulting in a substantially improved water taste.

For full filtration facts, **visit www.abode.eu**

Aquifier Filter Facts

- Premium Filtration – 5 Micron filter density
- Capacity is 5600 litres / 1500 gallons (an average 6 months family usage)
- Specially formulated high absorption activated carbon media
- Proprietary scale inhibition system
- Simple, fast and secure 'SafeLock' cartridge mounting system for easy replacement
- 90 degree twist to open and release the cartridge. The opposite to lock.
- Replacement filter reminder service by email or post
- For more information visit www.aquifier.co.uk

HANDSPRAY

A selection of useful, functional and practical accessories are available from Abode including pull out handsprays in a variety of contemporary and classic styles, flow limiting valves, fast fit tail pipes and spout attachments that bring additional functionality to your mixertap. It's the little things that make the difference.

Stainless Steel [£104.00]
Min 0.5 bar pressure required
Max 2.0 bar pressure

HENDON HANDSPRAY

- AT3040**
Chrome [£139.00]
AT3041
Pewter [£159.00]
Min 1.0 bar pressure required
Max 2.0 bar pressure

A practical pull out rinse unit with a 1.2m long hose will sit alongside any Abode kitchen mixertap and can be fixed independently of your kitchen tap to rinse and spray items. Our range incorporates modern, classic and stainless steel models – an option perfect partners to all kitchen mixertaps.

AQUIFIER FILTER CARTRIDGE

Premium Filtration – 5 Micron filter density. Capacity is 5600 litres / 1500 gallons (an average 6 months family usage). Specially formulated high absorption activated carbon media.

- AT2002** Cartridge [£35.00]

HIGH RESIN FILTER CARTRIDGE

Premium Filtration – 5 Micron filter density. Capacity is 300 to 1800 litres dependent on water hardness (an average 3 months family usage).

- AT2031** Cartridge [£35.00]
AT2032 Filter Head [£10.00]

TAP SUPPORT BRACKET

The tap stabilising bracket is designed to brace the tap to the worktop underside, thereby helping to reduce the movement of tall or heavy taps on stainless steel sinks. Please check compatibility before ordering.

- AX1011**
Stainless Steel [£9.00]

ACCESSORIES

RAPID FIT TAIL PIPES

Rapid Fit tail pipes have been developed by Abode in conjunction with John Guest International. The range of 600mm long wide bore flexible LLDPE tail pipes and 'Speedfit' connection parts enable the simple DIY installation of all the the monobloc and single lever mixertaps in the abode range. The rapid fit tail pipes take all the soldering and fiddly plumbing away and leaves a simple and speedy installation process.

The rapid fit tails are available in both 10mm and 12mm connection sizes. Check the icon next to the product when ordering to ensure you have the correct inlet size.

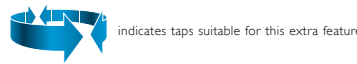

- AT1167** 10mm Fast Fit Tails [£20.00]
AT1168 12mm Fast Fit Tails [£20.00]

REVOLVE AERATOR

A swivelling joint that attaches to the end of your existing spout. This device allows you to precisely direct the flow of water from your tap into the bowl allowing thorough bowl rinsing and also helping to reduce splashing and water wastage.

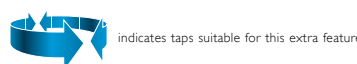

- AT1060** Revolve Aerator [£7.00]

JETSPRAY AERATOR

All the benefits of the Revolve Aerator with the added feature of a twin water pattern selection. Simply twist the end to choose between jet or spray pattern. Ideal during food preparation, rinsing cookware and also environmentally friendly, reducing water wastage from the tap. Available in Chrome and Black finishes.

- AT1140** Chrome Jet Spray [£20.00]
AT1141 Black Jet Spray [£20.00]

FLOW CONTROL VALVE

When installed this simple device limits your maximum water usage to 6 litres per minute when your tap is operating fully, resulting in a reduction of water usage and therefore your water and heating bills. The valve has a built in non return valve feature so can be used in conjunction with any Abode tap. For more information on reducing water and energy wastage visit our website www.abodedesigns.co.uk/flow

- AT1042** Flow Control Valve [£10.00]

TAP FINISHES

All Abode products are hand finished and plated to the highest standards, ensuring that your kitchen mixertaps will continue to retain its factory supplied sheen for years to come.

CHROME

BRUSHED NICKEL

ANTIQUE BRONZE

STAINLESS STEEL

MATTE BLACK

GLOSS WHITE

WARRANTY & CARE

WARRANTY

Comprehensive 5 Year Warranty

In the unlikely event that you should experience any defect in the materials or workmanship of your new Abode mixer within 5 years of purchase, the purchaser's sole remedy shall be the replacement (at the manufacturer's discretion) of all or any part of the product that is defective. All working parts and valves are guaranteed for a period of 5 years from purchase. Decorative surface finishes and O-rings are guaranteed for 1 year from the date of purchase provided that our advice concerning care has been observed and no scouring agents have been used. This is provided that the mixer or tap has been used for normal domestic purposes and that the care, installation and maintenance instructions have been observed. The warranty extends to the original purchaser only.

CUSTOMER CARE

Water Regulations

All products are designed in accordance with European Water Regulations and are manufactured to WRAS or other applicable European standards. All products should be installed in accordance with WRAS regulations and Local Water By Laws.

Technical Support

Choosing the right mixer tap for your home is an important choice as the tap is not only the most architectural item in your kitchen, but also the most used. Think about the style you require, the ease of use you are looking for, and then consider your existing water supply and the water pressure available to you. If you have any questions with regards to whether a tap will be suitable for your application, please contact our technical support team or visit our website www.abode.eu for more details.

Your long-term satisfaction with the product is important to us. In the event that you require spare parts for your tap, please contact our technical support team or visit our web site for further technical information.

The small print

Our policy is to continually improve and develop our products, and accordingly we reserve the right to amend specifications, particulars of weights, measures, prices, dimensions, finish and colour availability without prior notice. All prices include VAT at 20% and are the Manufacturers' recommended prices only.

Errors and omissions excepted.
