## Our Product Matrix

Find your chosen worktop's specification in our product matrices.

We like to call this new range - **Worksurface Solutions** as we have tried to improve on the traditional image of postformed worktops.

Our "Worksurface Solutions" are presented with many new textures and designs not seen on the Irish market or indeed any market before. We have a new ridged texture for woodgrains that offers a new vibrancy to the product, while our new slate texture makes several of our stone effect worktops look more and more realistic.

of laminate based worksurfaces, to make them more attractive to our customers. We kept searching and innovating until our customers choose our product as first choice and not just on price alone. We are pleased with the result when we hear our customers saying "that's not laminate, is it?" Or "this is what I want for my kitchen". This challenge forced us to establish new trading partners for laminate where new patterns or surface textures were not available before. It enables us to use these materials in innovative ways offering much greater choice than ever before.

# LAMINATE FIGHTS BACK

Topform took up the challenge to radically change the nature of traditional worktops. Our customers were telling us that they preferred Granite to laminate and were voting with their feet. We decided at Topform to start an initiative we call "**Laminate Fights Back**" – This imposed on us the obligation to seek out new materials and designs that radically change the look and feel

Laminate has many excellent qualities and we are working to bring these forward to our customers in a new and fashionable way. No other worksurface offers such trouble free use for the customer. We start our most competitive offer with our **TOP Contract** range of four designs where our pricing strategy is simply to offer the most competitive offer to the market. These worktops are well manufactured with a wrap-under profile and are suitable for bulk or contract use.

Our **TOP PLUS+** range has gained in popularity to become the largest range in the market. This year we are offering new technology which enables us to bend gloss and heavy texture laminates and manufacture on to our tight TopPlus++ profile. All TopPlus++ postformed worktops are now offered on the popular tight radii profile. We retain our unique moisture prevention seal on the underside of the profile.

The innovations for this range include two glass textured worksurfaces never used before. This product is complimented with matching upstand and backsplash to complete a very new look for kitchens. This is a very competitive new way of getting a "glass" look. You might like to try this product in **TOP SHAPE+** with a new two tone edging making the product look squarer.

**TOPFORM**<sup>®</sup>  
Creative Worktop Solutions

Why not complete the whole look by selecting a backsplash to match your worktop colour available in some of our most popular designs.

We have increased the size of upstands from 150 mm to 180 mm in response to many customers who would also like to use this piece for kicker boards and various infill panels.

New patterns like Ebony, Ocean Wood, Light and Dark Olive are introduced in response to new trends in wood products to look more washed, reused or re-cycled. These new patterns are stunning.

Natural woodgrains are represented in Warm Oak. This worktop works well with painted or cream kitchens bringing a soft feel to the overall design.

**TOP SHAPE++** is where we have completed our most changes. We have more than doubled the number of patterns and designs. Our very best product is represented here with many new innovative textures and new designs. You will note the careful selection of matching edging for TopShape++ where even the ridged textured worksurface has a matching ridged edging.

We have brought Gloss into TopShape++ with the introduction of the two glass effect patterns, along with Emperador and the ever popular Andorra.

Why not avail of our customised service for TopShape++. We can make to your own specific size and design within short lead times and to a reasonable budget.

**TOP WOOD** is offered in 5 species from our quality wood supplier. As you would expect these woods are ethically managed while being competitively priced. It is important to note that all TopWood timber tops are manufactured specifically for kitchen worktops. The difference is in the jointing system employed to give a life time of carefree and hassle free use. It is important to use our recommended oil and brackets for your warranty and peace of mind.

**“Laminate Fights Back” is our way of expressing our challenge to produce the best worktops in the world with a range of quality selected materials in design and textures.**

We hope that you will support our efforts and select our products for your kitchen designs.

## Value range worktop

If you need an affordable kitchen worktop, then **TOP Contract** is the answer for you. The beauty about this range of standard laminate worktops is that while ...

... it may be  
competitively priced  
it is also high in quality!

TopContract is manufactured using some of the highest quality laminate and furniture-grade chipboard available in the world today. Available in 4 colours, TopContract will complement any kitchen.

TopContract is a reliable and cost effective work surface, available in a 40mm wrap under profile.

Innovative Design, Superior Quality

## TOP PLUS+ +

‘Innovative design, superior quality,  
postformed worktops  
+ a whole lot more...’

We call it **TOP PLUS+ +** because it has features of a standard postformed worktop PLUS the addition of a whole list of premium added benefits and specifications.

- + Innovative back edge seal
- + PUR adhesive front edge seal
- + Edging strip
- + Branded backing
- + A whole lot more.

TopPlus++ is specified and manufactured as the “Best Worktop in the World” combining the best of materials and the most technically advanced manufacturing equipment and processes.

We have gone to the ends of the  
earth to select the very latest  
materials and textures for you.....

Select from our standard widths or have a worktop custom made to your own special size..... all within a week. Topform offer standard sizes but we can make any worktop width you desire for that special piece just for your unique solution.

Upstands are now made a special size of 180 mm for those of you who wish to use the same colour for kicker boards or infill panels.

Why not complete the whole look by selecting a backsplash to match your worktop colour available in some of our most popular designs.

Experience the remarkable versatility of this unique product.

## Use **TOP SHAPE++** for multi-level & 3D kitchen design

Graphite Melange Worktop

Available in both the TopPlus++ & TopShape++ range

### Square Edge Profile

### **TOP SHAPE++**

Featuring a contemporary square-edge profile, TopShape++ worktops are edged on all four sides and laminated both top and bottom with the same high quality laminate. This guarantees a seamless finish every time.

TopShape++ is an off-the-shelf solution that is ready to go. Installation is quick and easy and does not require any on-site finishing. TopShape++ will revolutionize your kitchen designs.

### What makes TopShape++ Shapes so special?

- Ready-to-go from stock.
- Laminated on both sides with heat, water and scuff resistant laminate.
- 'Square Edged' profile. Edged with polypropylene edging on all four sides to match surface colour and texture.
- Furniture grade chipboard core.
- No exposed surface areas.
- 40mm nominal thickness.
- Individually packaged with storage, transportation and promotion in mind.
- Customised individual pieces available.

All shapes available in 40mm thickness

in a Multitude of  
New & Creative ways

Fast Easy Joining  
with a perfect finish

5

#### **TOP SHAPE++** Jointing Worktops

Follow the steps illustrated to achieve the perfect join of your TopShape++ worktop pieces.

1. Offer one length up to another ensuring that full contact is made between two lengths and that positioning is exactly as you intend once lengths are joined.
2. Carefully and lightly mark with a sharp pencil where two lengths meet.
3. Using a square edge and a new bladed carpenter's knife, carefully cut through the TopShape++ polypropylene edging at 45 degrees.
4. Peel away the edging to reveal the chipboard core, starting at the bottom inside edge, which will not be seen later. Cut out for dog bolts and biscuit joints, apply wood glue, insert biscuits.
5. Join counters with a gentle force taking care not to damage edging.

## Upstands, Backsplashes & Accessories

At Topform, we are dedicated to providing our customers with the full kitchen design solution. Innovative use of upstands, backsplashes and offcuts can dramatically improve the aesthetics and functionality of your new kitchen design.

Honey Granite worktop and upstand

Ocean Wood worktop and backsplash

Laminated backsplashes are available in matching complimenting colours and are ideal for areas behind the sink or hob. The added visual appeal of a well chosen backsplash can be a great finishing touch to your kitchen design.

### Backsplash Sizes

3000mm x 1200mm x 8mm (nominal thickness)

#### Specification:

- Laminated face
- Scarified balancer
- 6mm MDF
- Square cut- no edging

### Upstand / Kicker Board Sizes

3600mm x 180mm x 18mm

#### Specification:

- Laminated face
- 18mm chipboard core
- SPF on one long side
- No edging

Our world class manufacturing techniques ensure that all our laminated worktops are perfectly edged. Whether your worktop is postformed or square edged, you can rely on the consistent quality of Topform.

### Danish Oil

Danish oil is specially formulated to penetrate deep into your solid wood worktop. It helps to preserve your worktop and dries to a hard, water resistant non-sticky finish.

### Countertop Magic

Countertop Magic cleans and polishes all countertop surfaces including laminates, granite and solid surfaces. It leaves a clear protective shield that repels dirt and liquids, preventing stains and making routine cleaning easier.

### Fixing Brackets

Use these heavy duty brackets for fixing worktops to unitry and walls, allowing for natural movement in the worktop.

Light Walnut Capping, Upstand, Worktop and Gable End

### Edging

Additional matching edging can be purchased, which then allows you to cut tops to size and get creative. Easy to bond, the edging can be used with offcuts in a multitude of ways to create your unique kitchen design.

### The Topform Worktop Jig

Custom designed for the best joints in your worktop. This jig has many other built-in additional features.

## How to care for your laminated work surface.

The following is a Care & Maintenance Guide only. The information presents the most effective ways of fitting and caring for your worktop. The warranty is only valid if guidelines as described are followed.

### Things to do and things to avoid

	Things To Do	Things To Avoid
<b>HEAT</b> 	To prevent damage from hot objects, use heat resistant mats on the surface of the worktop. Always use ashtrays for cigarettes.	Never place objects from the oven or hob directly onto the laminate surface since this may lead to blistering. Care should also be taken with hot irons and cigarettes.
<b>SCRATCHING</b> 	Always use a chopping board for preparing food.	Some crockery items, kitchen utensils and other objects sliding across your worktops will produce fine scratches in the laminate. Try to avoid sliding rough based objects across the surface. Never cut foodstuffs directly on the laminate surface.
<b>MOISTURE</b> 	Wipe spilt liquids away from joints and cut-outs immediately. Ensure that all inset appliances are properly sealed with a suitable waterproof silicone sealant.	Moisture will not harm the laminate surface itself but it is advisable to wipe away any spillages as soon as possible. The critical areas are around joints and cut-outs.

### CAUTION HEAVY:

**Please use the appropriate safety clothing and lifting equipment.  
Protective gloves must be worn whilst handling worktops.**

### Cleaning:

General cleaning of the surface requires only a damp cloth & a mild detergent or non abrasive cleaner diluted in warm water. Some strong chemicals, dyes and fruit juices may harm your TopContract, TopPlus++ & TopShape++ work surface.

**In the event of spillage always wipe up, rinse & dry the area thoroughly. Do not leave liquids lying on the surface. They may seep through a joint and affect the core board.**

Note: Prolonged contact with some PVC aprons may promote premature wear of the work surface. Abrasive scouring powders, creams and even polishes should all be avoided.

### Wear Resistance:

TopContract, TopPlus++ & TopShape++ worktops provide a hard wearing surface. However, the surface will be damaged by scratching of sharp knives or other sharp utensils. It is recommended that a cutting board or protective mat be used when using such implements.

**TOP Wood**

### How to care for your solid wood work surface.

Our solid wood worktops from the TopWood range are easy to maintain and easy to repair. Minor scuffs and abrasions can be easily sanded and finished with danish oil.

### Lifetime Warranty:

Topform worktops have a lifetime warranty against manufacturing defects. The manufacturer undertakes to make good by repair and/or replacement (at its own discretion) any worktop shown to have failed by any reason of defects in design, materials or workmanship. This warranty is subject to fair wear and tear and providing that the installation, care and maintenance instructions have been followed and that the product has been properly used for its intended purpose. The worktop warranty becomes void once the postform edge is cut off. This undertaking is in addition to the consumers' statutory rights and does not affect those rights in any way. This warranty covers domestic installations only. No claims for replacement costs will be entertained if the worktop is not fully inspected before fitting.
