Astracast® Lifetime Guarantee

All Astracast Studio collection sinks have a comprehensive lifetime guarantee which covers the sink against the unlikely event of any material or manufacturing defect. This guarantee is just one part of Astracast's commitment to total quality, assuring you that your Astracast sink will give you the highest level of performance and lasting good looks for years to come.

IMPORTANT: This does not affect your statutory rights. Our obligation under the guarantee is to the original purchaser only – and may not be transferred.

All Astracast products comply with the UK Building Regulations and product safety requirements.

ROK TEX® is an industry first pioneering new granite ROK® material. The surface is textured which gives the sink a beautiful contemporary slate effect. In addition metallic particles are added during the manufacturing process giving the sink a glister which is intensified under light.

ROK® Metallic is a unique granite material whereby metallic effect particles are added during the manufacturing process. The resulting sink has striking good looks and complements contemporary kitchen environments. Available in three colours with all the material benefits of ROK®.

finishes & guarantees

Stainless Steel 18/10 sinks offer long lasting corrosion resistance and will withstand all common household acids and detergents. Available in Polished and Brushed steel finishes to complement kitchen appliances.

Ceramic Sinks are individually hand-crafted and finished in fireclay. Cool and silky to touch, they have a hard non-porous surface giving excellent resistance to all commonly used chemicals and detergents and are extremely resistant to heat.
